

HELMET SIZING CHART

To work properly, a helmet must fit correctly. TSG makes helmets in many different sizes. Depending on the model, up to four shell sizes are used. Each shell size can be fine tuned with interior fitting pads and/or a sizing dial (*dial fit system*).

HOW TO MEASURE

To measure your head circumference simply wrap a measuring tape around your head, measured above ears and just above the eye-brows. Note your size at the point of overlap.
